

ALEXEY ZHERDEV

Junior DevOps Engineer

alexeyZh3r3dev@yahoo.com | +7 989 109-35-73 | Moscow, Russia | github.com/Geniusmediocrity

PROFESSIONAL OBJECTIVE

I am a Junior DevOps Engineer with hands-on experience in containerisation, infrastructure automation, and monitoring systems. I specialise in deploying and managing multi-container environments using Docker, Kubernetes, and Ansible. I aim to grow into a senior-level DevOps role within a team that builds reliable, scalable infrastructure.

EDUCATION

College of Computer Science and Programming

(Financial University under the Government of the Russian Federation)
Speciality: ISIP 09.02.07
Graduation: July 2028

LANGUAGES

English — B1–B2
Russian — Native
Belarusian — B2

DEVOPS & INFRA

Linux · Docker · Kubernetes
Ansible · Nginx · Cloudflare
Prometheus · Grafana
Proxmox VE · Proxmox BS

PROGRAMMING

Python · Bash · Rust
C/C++ · JavaScript
HTML/CSS · Lua

DATABASES

PostgreSQL · MariaDB · MySQL
Redis · MongoDB · SQLite

FRAMEWORKS

FastAPI · Flask · Pandas
NumPy · Tokio · Axum · Yew
Ratatui · Seaborn · Numpy
Pytorch

TOOLS

Git · Nextcloud · Figma
Blender · Arduino · Proxmox

PROJECTS & PRACTICAL EXPERIENCE

Modular Web-Stack Deployment Automation | *Personal / Academic Project*

- ▶ Reduced Docker image sizes by nearly 3× through deep containerisation optimisation (multi-stage builds), significantly speeding up application delivery.
- ▶ Saved 5+ hours of manual work per deployment by automating complex environment setup with Ansible.
- ▶ Configured orchestration of multi-container projects: Node.js, Python/FastAPI, PostgreSQL, Redis, Kafka and MariaDB on Ubuntu Server and Proxmox VE.

Infrastructure & Monitoring Setup | *Personal Project*

- ▶ Implemented a Linux process and Docker container monitoring system based on Prometheus + Grafana.
- ▶ Configured Nginx as a reverse proxy for reliable data storage and web services.
- ▶ Deployed Proxmox VE cluster and Proxmox Backup Server for GitLab and Nextcloud backups.
- ▶ Set up a homelab on Debian Server 13.0(Trixie) running Nextcloud, monitoring stack, and environment exploration.
- ▶ Configured Xray infrastructure with Ansible for multi-server deployment: network protocols, proxying, distributed cluster, Cloudflare integration.

CERTIFICATIONS & ADDITIONAL TRAINING

Stepik Platform

- ▶ "Generation Python": Beginner Course — 2024
- ▶ "Generation Python": Advanced Course — 2024
- ▶ Web Development for Beginners: HTML & CSS — 2025
- ▶ Python — Module 3 (Libraries & Files) — 2025
- ▶ Introduction to SQL — 2025
- ▶ Data Marathon: Introduction to SQL and Python — 2025
- ▶ DevOps in Plain Language — 2025
- ▶ Introduction to Linux — 2025
- ▶ JavaScript for Beginners — 2025
- ▶ Getting Started with Docker — 2025
- ▶ C++ for Beginners — 2025
- ▶ Git and GitHub [Beginner+] — 2026
- ▶ Linux Permissions and Users — 2026

Itcodik Platform

- ▶ C++ — 2025
- ▶ C++ Developer — 2025
- ▶ Git — 2025
- ▶ SQL — 2025
- ▶ Python Coding Guide — 2025
